📍 Istanbul, Türkiye

Education

Ozyegin University, Istanbul, Türkiye 2021 – Present

Ph.D. in Structural Engineering

GPA: 3.91/4.00

Thesis: *Multi-hazard Performance of Structural Buildings Considering Fires and Debris Flows After Earthquakes*

Advisor: Asst. Prof. Derya Deniz

K. N. Toosi University of Technology (KNTU), Tehran, Iran

2013 – 2015

M.Sc. in Structural Engineering

GPA: 15.7/20

Thesis: *Investigation on Seismic Behavior of Eccentric Split-X Bracing Using Incremental Dynamic Analysis*

Advisor: Prof. Nader Fanaie

University of Mohaghegh Ardabili (UMA), Ardabil, Iran

2008 – 2013

B.Sc. in Civil Engineering

GPA: 16.3/20

NODET (National Organization for Development of Exceptional Talents), Ardabil, Iran

2004 – 2008

Diploma in Mathematics and Physics

GPA: 18.7/20

Research Interests

- Multi-hazard performance and risk assessment of structures (fire following earthquake, debris flows)
- Seismic and thermal analysis using computational methods (OpenSees, OpenSeesPy)
- Structural health monitoring and damage assessment
- Ground motion prediction and uncertainty quantification
- Performance-based seismic design of industrial buildings

Publications

Journal Papers

1. G. Sagbas, **R. Sheikhi**, K. Sarikaya, D. Deniz, “Field reconnaissance on seismic performance and functionality of Turkish industrial facilities affected by the 2023 Kahramanmaraş earthquake sequence,” *Bulletin of Earthquake Engineering*, Vol. 70, 2023. DOI: [10.1007/s10518-023-01741-8](https://doi.org/10.1007/s10518-023-01741-8)
2. **R. Sheikhi**, N. Fanaie, “Seismic Behaviour Assessment of Eccentrically Split-X Braced Frames,” *Scientia Iranica*, Vol. 28(1), pp. 65-84, 2021. DOI: [10.24200/sci.2019.5054.1073](https://doi.org/10.24200/sci.2019.5054.1073)

Papers Under Preparation

1. **R. Sheikhi**, D. Deniz, “Risk Assessment of Fire Following Earthquake in Industrial Precast Buildings,” *Under Preparation*, 2025.

Conference Papers

Research & Academic Experience

Ph.D. Researcher

2021 – Present

Ozyegin University, Istanbul, Türkiye

- Principal researcher on TÜBİTAK 3501 project: “Fire Following Earthquake in Industrial Buildings” and TÜBİTAK 1719 Eureka Network Project: “GIS-Based Platform for Urban Seismic Resilience (GURU)”, funded under the Eureka Network 2024 National Call on Post-Earthquake Resilience.
- Developed advanced OpenSees and OpenSeesPy computational models for multi-hazard performance evaluation of structures subjected to sequential earthquake-fire scenarios
- Conducted parametric studies and Monte Carlo simulations to assess fire propagation and debris flow impacts on structural performance
- Performed field reconnaissance and data analysis following the 2023 Kahramanmaraş earthquake sequence
- Collaborated with international research teams on post-earthquake assessment of industrial facilities

Graduate Research Assistant

2013 – 2015

K. N. Toosi University of Technology, Tehran, Iran

- Conducted incremental dynamic analysis (IDA) and nonlinear time-history analyses on eccentrically braced frames equipped with shape memory alloy (SMA) dampers
- Investigated seismic performance of irregular steel frames and steel shear wall systems
- Developed computational models for advanced structural analysis

Teaching Assistant

2013 – 2015

University of Mohaghegh Ardabili & Islamic Azad University, Ardabil, Iran

- Courses: Structural Analysis I & II, Steel Structures II
- Assisted Dr. Amin Ghanadasl, Dr. Ali Mansoori, and Dr. Kazem Shakeri

Professional Experience

Structural Engineer

November 2015 – 2021

Moshaverin 7 Cheshme Consulting Engineers, Ardabil, Iran

- Designed and supervised civil and structural projects including reinforced concrete and steel buildings
- Prepared detailed engineering drawings, technical specifications, and structural analysis reports
- Coordinated with contractors and clients for successful project delivery

- Projects included residential, commercial, and public infrastructure

Physics and Mathematics Teacher, Educational Consultant

2008 – 2013

Kanun-e-Farhangi Amuzesh (Ghalamchi), Ardabil, Iran

- Taught advanced physics and mathematics to high school students
- Developed curriculum and educational materials

Technical Skills

Structural Analysis: OpenSees, OpenSeesPy, ABAQUS, SAP2000, ETABS, SeismoStruct

Design & Drafting: Revit, AutoCAD

Programming: Python, MATLAB, TCL

General Tools: Microsoft Office Suite, LaTeX, GitHub, Advanced Excel

Languages

Persian (Farsi): Native

Azerbaijani: Native (mother tongue)

Turkish: Fluent

English: Fluent

Arabic: Basic reading and writing

Honors & Awards

- Ranked **353rd among 35,643 participants** (Top 1%) in Nationwide M.Sc. Entrance Examination, Iran, 2013
- Awarded **Full Scholarship** for M.Sc. studies by the Ministry of Science, Research and Technology, Iran
- Awarded **Full Ph.D. Scholarship** at Ozyegin University, Türkiye, 2021
- Principal Investigator of TÜBİTAK 3501 Career Development Project: “Fire Following Earthquake in Industrial Buildings,” funded by The Scientific and Technological Research Council of Türkiye.
